## PROBLEM STATEMENT

In today's digital era, traditional resumes alone are not enough to showcase skills and project effectively. Many students and professionals lack a structured online presence to highlight their work. A digital portfolio provides an interactive and accessible platform to present achievement, skills and experience.

# PROJECT OVERVIEW

- Brief summary of my project
- What my portfolio contains (about me, projects,

skills, contact). Main idea: showcase personal achievement, skills, and projects.

# WHO ARE THE END USERS?

Students (academic projects, resumes).

Job seekers (to share with recruiters).

Freelancers (to show clients).

Professionals (to highlight experience and achievement).

# TOOLS AND TECHNIQUES

- Html: structure (pages, sections). CSS: styling (colours, layouts, responsiveness). JavaScript: interactively (navigation menu, animation, form validation). Mention code editor (VS code) or CODEPEN and hosting platform (GitHub pages).

# PORTFOLIO DESIGN AND LAYOUT

- Sections included:
- Home/ about me
- Projects
- Skills
- Contact
- Responsive layout (mobile+desktopview).

*Carly*

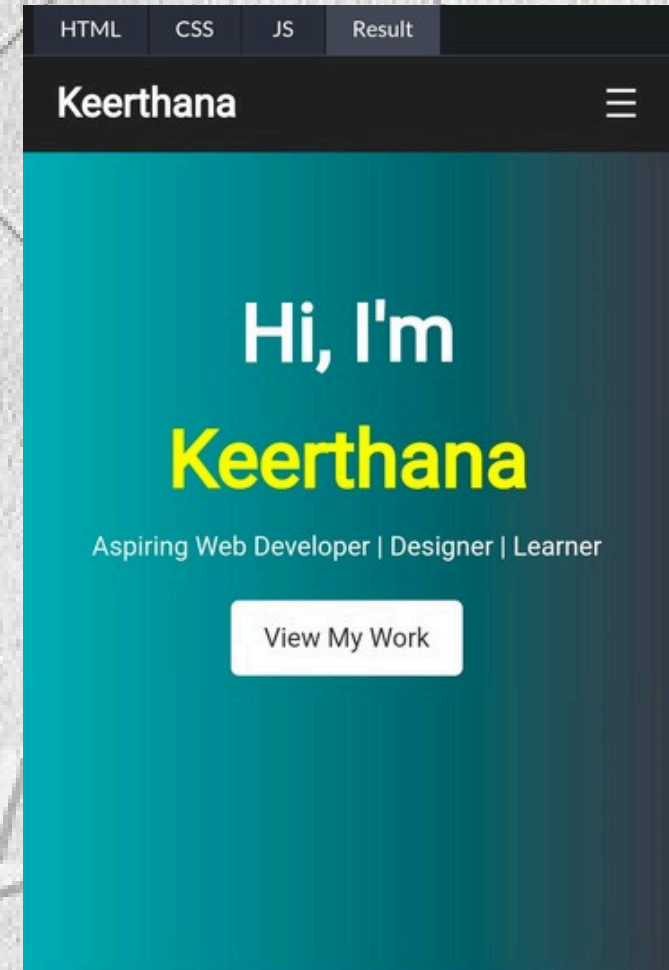

# FEATURES AND FUNCTIONALITY

- Navigation bar with smooth scrolling.
- Project showcase with images/details.
- Interactive elements (hover effects, animation).
- Contact form (with validation).
- Responsive design for all devices.

# RESULT AND SCREENSHOT

- Screenshots of each
- section Before vs after  
(plain HTML: with CSS&JS).

# CONCLUSION

- Highlights of my project
- Final summary
- Benefits of society

*Caribba*

THANK YOU
